DR. SALUSTIANO T. JIMENEZ, LLB.
Schools Division Superintendent
Division of Negros Oriental
Dumaguete City

Dear Dr. Jimenez:

Emergencies and disasters have an impact on a whole range of factors that can increase the risk of malnutrition, hunger, illness and death. We had felt these problems during the Super Typhoon Haiyan. The National Nutrition Council, as the chair of the Nutrition Cluster for Health Emergency Management will conduct a **Training on Nutrition in Emergencies for the members of the Provincial Nutrition Cluster** targeting PDP category 3 Provinces with Multiple Hazards on 06-10 March 2017 in a hotel in Dumaguete City. The training covers the emergency management system of the national and local governments in preparedness and response to adverse events and frequently experienced disasters affecting the communities. The activity will also introduce the national and local guidelines, issuances and standards relevant to nutrition in emergencies.

In this connection, we would like to request **MS. EMMA S. MATE**, Senior Education Specialist, **MS. ELIZABETH QUIRIT**, Nurse II, **MS. JOSEPH GEMINA**, DRRM Project Development Officer to attend this training. NNC will shoulder the board and lodging and training materials of the participants. However, we would to request the sending agency to shoulder the per diem and traveling expenses of the participants.

We look forward to receiving your positive response to this request as we continue to find ways to help prepare our local government personnel to protect the health and nutrition of our children and other vulnerable groups in times of emergencies and disasters.

Thank you.

Very truly yours,

Parolita A. Mission, DPA, RN
Nutrition Program Coordinator
