During 2015/2016 we performed over 1,800 safe, 100% free surgeries for the children and people of the Visayas region. We are ranked #1 of all Outreach Surgical Missions in the Philippines for providing surgery to repair cleft lip and cleft palate birth deformities, and we are one of only 16 organizations out of more than 2100 world-wide last year to receive a Global Leadership Award for our work here in the Philippines. Our principal partners include the USA-based Smile Train, one of the largest charitable organizations in the world exclusively supporting the correction of these facial cleft deformities, directly supporting about 6,500 such surgeries last year in the Philippines alone
