Overview:

The Saceda Youth Lead International Program in Asia is an Honors Program that will empower students to become most effective citizens of the country by giving them opportunities in leadership, community service and exchange.

This exchange brings in the best and the brightest students of the school who are empowered through this international exchange to become the future leaders where they are exposed to various opportunities and experiences for total human development.

The trip creates a platform for students to appreciate and understand the geo-political issues in the ASEAN and Asia Pacific regions by personally witnessing, discussing and exploring local poverty, education, socio-economic, cultural and political issues. This is a bigger effort to train the students to be acutely aware of regional and global affairs and grasp the ramifications and impacts. The program aims to ignite the heart and spirit of altruism and volunteerism. The exposure will play a noteworthy role in the personal development of the students.

Purposes:

The SYL International Program in Asia will cater to students with the aim to: (1) expose students to other peoples' culture through leadership and social action; (2) to study common patterns that emerge across all cultures and how these patterns reveal the diversity of human experience. (3) To identify similarities in cultural behaviors, norms etc; and to experience the culture of people through visits, (4) To meet local leaders, (5) To provide enrichment in the education of the youth through classroom instruction and school visits and, (6) To train and empower student leaders to become future leaders and, (7) To promote peace and mutual understanding through travel and exchange.
