Dear **Dr. Jimenez**,

The Provincial Health Office (PHO) is grateful of your unwavering support to our Adolescent Health and Youth Development Program (AHYDP) in sending your students to attend our various trainings. We are pleased to inform you that last month, 16 selected high school students from the Dep-Ed Negros Oriental Division (*found on the attached sheet*) completed the set of 4 trainings under the Ladderized Program for Peer Education on Adolescent Reproductive Health (ARH), and became Peer Educators on ARH.

As Peer Educators on ARH they are committed to helping other young people in their school make responsible and healthy decisions through a better understanding of sexuality, clearer values, and the practice of life skills in their respective schools.

As their first activity being peer educators on ARH, and to practice their knowledge and skills acquired from the various trainings, **the PHO is scheduling a one-day Training-Orientations on Adolescent Reproductive Health to the schools represented by these peer educators. Participants of the training per school are 100 students from grades 7 and 8.** Since the training starts at 9:00am and ends at 4:00pm, snacks and lunch will be provided by PHO.

In view of this, **we would like to request that we be allowed to conduct the above-mentioned activity to the intended participants, with the attendance and assistance of the newly trained peer educators of the school she/he is representing, on the following dates and venue:**
